Q-Park colours are defined in the Visual Identity colour section.

For information about the colours you can use in charts, graphs and tables see the primary colours section.

Visuals included in writing

Visuals of all types can be used to clarify information or a concept that is complicated to explain in words. Use photos, infographics, tables, charts and graphs where applicable.

To have an infographic redrawn in house style, please contact Corporate Brand & Communications

Take note of the following dos and don'ts when including visuals in your text.

Do

Leave white space around a visual element. We call this the 'safe zone'.

Use icons and visual elements with right-angled corners. This emphasises our brand image.

Always add a caption or title.

- I If appropriate for your text include numbering. This makes it easy to refer to the visual in the text.

Always state the source and credit the copyright holder.

Don't

Place text over a visual element as this detracts from the readability

Use icons or visual elements with rounded edges, shadows etc. This would detract from our brand image
